📖 GitHub Docs

Qwen Code

- Install Node.js 20+
- `npm install -g @qwen-code/qwen-code`
- Configure API credentials

📖 GitHub Docs

> 💡 **My Personal Take**
>
> Claude Code is the absolute best, followed by Cursor Agent - most versatile tools out there. If you can spend $20 to test it out, then later grab the $100-200 plan for serious coding, it's the best deal in the AI world right now.
